Village of Matherville

June 24, 2024

All Water and Garbage Matherville Residents:

Effective August 1st, 2024, current water and garbage rates will increase. Garbage rate increase is due to the new garbage contract that became effective April 1, 2024. Water rates have not increased since 2008 and with rising repairs and infrastructure upgrades needed, water also is increasing. New rates will be:

Water for in-town users: \$25.00 per month – base rate

Water for out-of-town users will stay the same: \$40.00 per month – base rate

Garbage: \$25.00 per month including recycling

Sewer rates will be staying the same: \$20.00 per month

Total monthly bill will be \$70.00 for in-town water, sewer, and garbage/recycle users. This new amount will be on the bill that is due August 15th, 2024.
